

FAQs

What is X-1R Diesel Treatment?

X-1R Diesel Treatment keeps the entire fuel delivery system and combustion chamber clean when used at regular intervals. X-1R Diesel System Treatment contains Injector Cleaner, Cetane Power Booster, Valve Protector, Upper Cylinder Lubricant, Carbon Eliminator, Moisture Eliminator and Fuel Stabilizer combined with Strong Detergents and Deposit Control Agents are designed specifically to restore your vehicles performance using less petrol to deliver more power.

Where do I use X-1R Diesel Treatment?

X-1R Diesel Treatment is specifically formulated and designed for use in all Diesel vehicle fuel systems. X-1R Diesel Treatment can be added to least half a tank of fuel at any time.

How do I use X-1R Diesel Treatment?

For optimum performance add one 240ml bottle of Diesel Treatment to treat up to 75litres of Petrol. For best results we recommend first adding X-1R Diesel Treatment to your fuel tank and then filling with Diesel. This will enable the Diesel and Diesel Treatment to mix, clean and improve performance more efficiently. For optimum performance repeat every 5,000Km or 3 months. Just pour into your fuel tank and go.

Can I use X-1R Diesel Treatment in all of my vehicles?

X-1R Diesel Treatment is suitable only for all Diesel fuel systems. X-1R has a range of products designed for different types of engines and vehicles. Visit www.x1r.com.my or call +603 4260 3852 for more information.

Will using X-1R Diesel Treatment void my vehicle warranty?

No. X-1R is not listed on any void list from any manufacturer.

Will X-1R Diesel Treatment have any effect on my fuel sensor?

No! Your fuel sensor is designed to manage the timing of fuel injectors, which time exactly the amount of fuel your engine needs to operate at optimum level. Varying grades of fuel cause engine timing to be altered which will cause a decrease in fuel economy and power. X-1R Diesel Treatment will not harm computers, Catalytic Converters or Oxygen Sensors. It acts to clean your fuel system, improves performance and fuel economy, reducing exhaust emissions, thereby helping us to create a cleaner environment.

How often should I use X-1R Fuel System Treatments?

You can use X-1R Diesel System Treatment every time you refuel. We recommend using at least once every 5,000Km or three months.
