

FAQs

What is X-1R Fuel System Cleaner?

X-1R Fuel System Cleaner keeps the entire fuel delivery system and combustion chamber clean when used at regular intervals. X-1R Fuel System Cleaner contains Injector Cleaner, Octane Power Booster, Valve Protector, Upper Cylinder Lubricant, Carbon Eliminator, Moisture Eliminator and Fuel Stabilizer combined with Strong Detergents and Deposit Control Agents are designed specifically to restore your vehicles performance using less petrol to deliver more power.

Where do I use X-1R Fuel System Cleaner?

X-1R Fuel System Cleaner is specifically formulated and designed for use in all Petrol vehicle fuel systems. X-1R Fuel System Cleaner can be added to your fuel tank at any time. For best results we recommend first adding X-1R Fuel System Cleaner to your fuel tank and then filling with Petrol. This will enable the petrol and Fuel System Cleaner to mix, clean and improve performance more efficiently. Just pour into your fuel tank and go.

How do I use X-1R Fuel System Cleaner?

For optimum performance add one 60ml bottle of Fuel System Cleaner to treat up to 75litres of Petrol. A minimum of 19 litres of Petrol is required. For best results we recommend first adding X-1R Fuel System Cleaner to your fuel tank and then filling with Petrol. This will enable the petrol and Fuel System Cleaner to mix, clean and improve performance more efficiently. For optimum performance repeat every 5,000Km or 3 months. Just pour into your fuel tank and go.

Can I use X-1R Fuel System Cleaner in all of my vehicles?

X-1R Fuel System Cleaner is suitable only for all Petrol fuel systems. X-1R has a range of products designed for different types of engines and vehicles. Visit www.x1r.com.my or call +603 4260 3852 for more information.

Will using X-1R Fuel System Cleaner void my vehicle warranty?

X-1R is not listed on any void list from any manufacturer.

Will X-1R Fuel System Cleaner have any effect on my fuel sensor?

Your fuel sensor is designed to manage the timing of fuel injectors, which time exactly the amount of fuel your engine needs to operate at optimum level. Varying grades of fuel cause engine timing to be altered which will cause a decrease in fuel economy and power. X-1R Fuel System Cleaner will not harm computers, Catalytic Converters or Oxygen Sensors. It acts to clean your fuel delivery system, improves performance and fuel economy, reducing exhaust emissions, thereby helping us to create a cleaner environment.

How often should I use X-1R fuel additive products?

You can use X-1R Fuel System Cleaner every time you refuel. We recommend using at least once every 5,000Km.

Does X-1R Fuel System Cleaner boost Octane?

X-1R Fuel System Cleaner does not boost the octane of the fuel. We recommend you try our X-1R Octane Booster to improve mileage or X-1R NX Power Booster (Nitrous-Express) to increase horsepower.

Can I use X-1R Fuel System Cleaner in Diesel fuel?

X-1R Fuel System Cleaner is only for Petrol systems. Diesel fuel systems and Petrol systems are designed differently, and require different additives. We recommend X-1R Diesel Treatment which is designed specifically to address problems related to all Diesel fuels and new diesel engine technologies, including thermal oxidation (heating of fuel), sludge and sediment formation, corrosion, and lubricity issues. It also helps remove water from Diesel fuel.
